

# ART TREK

## City Blocks Conversation Starter

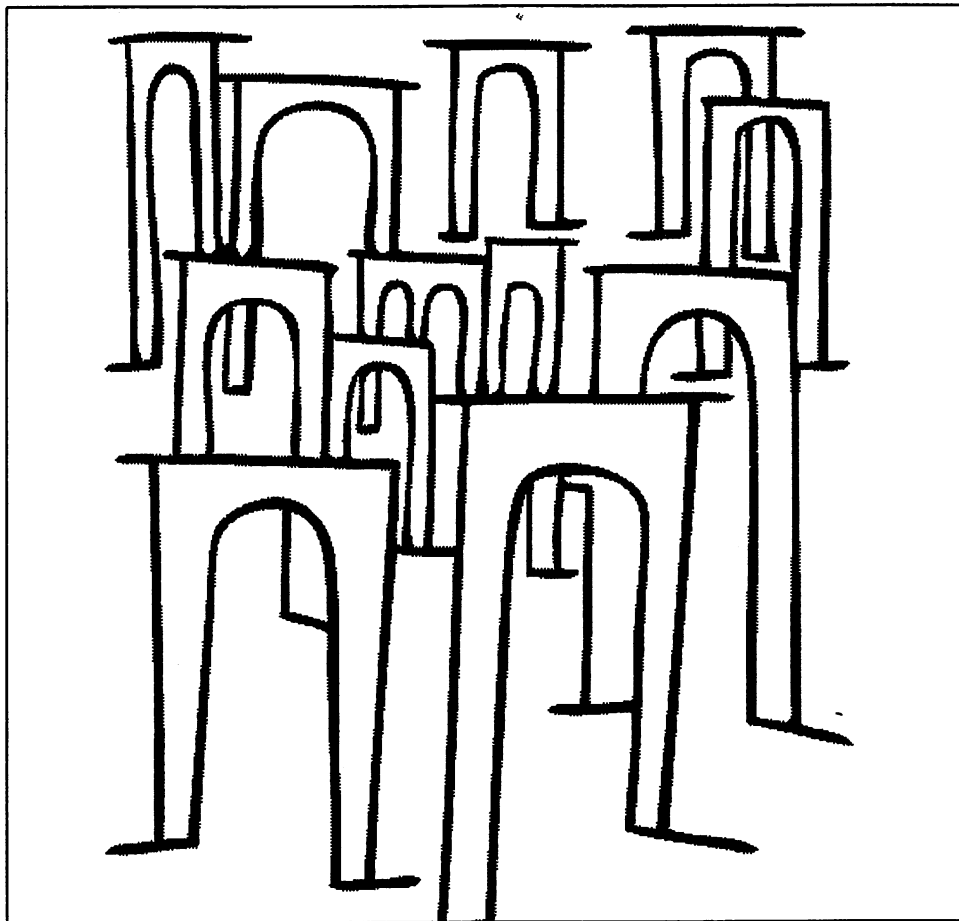

In my Art Trek lesson I learned about relief sculpture and cityscapes. My piece of art is at school, but I wanted to share with you what I learned!

Now I know:

- How to build with simple geometric shapes to create buildings and rooftops.
- By adding layers of shapes, beginning with the background first and applying more shapes on top towards the foreground, I can create a sense of space in my cityscape.
- Smaller circles, rectangles, squares and strips add details that look like windows, doors, and other parts of the buildings.

**Have fun coloring the pictures at home!**
